

GX-6000Portable multi gas detector

Features

- Multi gas detection, 1 to 6 gases
- Smart sensors PID, IR, EC + 4 Standards (HC, O₂, CO, H₂S)
- Internal sample pump
- IP67 / operating temperature -20 to 50°C
- ATEX / IECEx / CE approvals
- Multi lingual full dot LCD display
- Calibration station SDM-6000 available

Overview

This latest powerful hand-held instrument is capable of simultaneously monitoring up to 6 gases. In addition to the standard 4 confined space gases which include combustibles (HC), O_2 , CO, & H_2S , the GX-6000 has 2 additional smart channels that accept PID, IR or super toxic sensors.

Equipped with a strong internal sample pump, a man-down alarm, a panic alarm, an LED flashlight, and a large auto rotating LCD display, the GX-6000 can operate as a single gas PID unit or as a multifunctional tool utilizing all 6 channels.

The GX-6000 with a PID sensor will come equipped with a library of over 600 VOC gases to choose

from as standard. Choosing from the library is easy with a personalized favorites list of 30 commonly used VOC's as well as a list of 8 of the most recently used VOC's.

The GX-6000 has a rugged design built for the nastiest environments. It is equipped with a removable impact-resistant rubber boot and a dust and water resistant enclosure with an IP-67 rating. An additional screen protector makes the protection up.

With 5 bright LED lights on 3 sides of the instrument, alarms are easily seen from a variety of perspectives. With vibration and loud audible alarm, GX-6000 will easily alert users when needed.

IrDA Communication

The built-in data logger allows you to record measurement data and save it to the internal memory. The optional data logger software can be used for managing instrument fleets. Consequently, you can also transmit the data wirelesses by infrared to a PC to analyze prior hazardous situations.

Password Protection

Because of the GX-6000 security features you are secured from accidental misconfigurations, which may influence measurement mode in a negative way and endanger the user.

All critical adjustments can be password protected. With the password protection it is possible to prevent a switching off of the instrument after activation.

Cal-Station SDM-6000

Stand Alone Station

The SDM-6000 is a versatile maintenance tool that automates the service of a GX-6000 portable gas monitor. This docking station can be used as a stand alone device for charging, calibration and bump testing, with all records stored automatically for future upload to a PC via SD card.

All data collected from the PC Controlled software is available on the PC.

Up to 10 calibration stations can also be connected

to one PC for calibration, bump testing and archiving

SDM-6000 calibration stations are modular by design and can easily connect to each other without the need of any tubes or cables.

One power source and one set of calibration equipment can provide service for up to 10 SDM-6000 calibration stations.

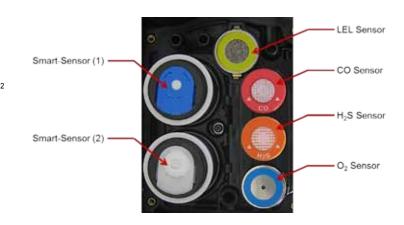

Sensors

High flexibility: 4 Standards: HC, CO, H₂S, O₂

2 Smart sensors selectable:

EC, IR, PID

Please check cross sensitivities of gases befor the gas configuration.

	Gases & Detectable Ranges					
	Gas	Measuring Range	Minimum Display	Alarm Set Points	Accuracy	
	Catalytic Sensor					
	Hydrocarbons	0 - 100% LEL	1% LEL	A1: 10% LEL / A2: 50% LEL	± 5% of reading or ± 2% LEL

		0 - 6000 ppm	0.1 ppm: (< 600 ppm) 1 ppm: (> 600 ppm)	A1: 400 ppm A2: 1000 ppm		

TOP Service Program

RKI Analytical Instruments offers follow-up services to give our customers extensive care for a fixed and affordable price so that running costs are manageable.

The development and production of high-quality gas measuring technology on one hand and experienced engineering, professional installation and maintenance on the other hand - RKI covers all of them.

Our Top Service:

- Response time within 48 hours (working days)
- Function control, repair
- Two times gas calibration every year
- Calibration certificate

Services performed preventive:

- Filter exchange
- Sensor exchange
- Cleaning

Modell	GX-6000				
	Gas alarm	Man-down	Trouble		
Alarm Types	Low and high adjustable	1st - self reset 2nd - latching	Low flow, sensor connection, low battery, circuit error, calibration range		
Sample Method	Sample draw pump, flow rate 0.45 L / min, 15 m sample range				
Display	Digital LCD, autobacklite, peak bar display, auto display rotation and customize order of gases				
Languages	English, German, Spanish, French, Italien, Portuguese, Russian, Japanese, Korean				
Continuous Operation	Lithium-ion battery pack: 14 hours / complete recharge in 3 hours 3 x AA Alkaline batteries: 8 hours				
Operating Temp. & Humidity	-20 to +50°C, 0 to 95% RH (non condensing)				
Dimensions & Weight	Approx. 200 x 68 x 52 mm, 0.4 kg (with lithium battery pack)				
Safety Class	IP67				
Approvals	IECEx, ATEX, TIIS, CE				
Standard Features	2 x Smart sensors slots, auto recognize sensor changes, library of over 600 VOC's, user defined VOC list up to 30 frequently used, recent VOC list for last 8 selected gases, pump and circuit status indicators, user & station ID selection menu, datalogging (interval, alarm trend, station and user ID), snap logging - on demand data logging, demand zero / auto zero, BUMP and CAL expiration alarm, flashlight, IrDA communication, LEL sensor protection mode				
Standard Accessories	Rubber boot, belt clip, hand strap, tapper nozzle, probe with hydrphobic filter, users m				
Optional Lithium-ion battery unit & charger / alkal Accessories Cal-Station S			Filter set, IrDA cable,		

Modell	SDM-6000		
LED	Each status is indicated by Lighting / Blinking (Green, Red, Orange)		
Display	Touch panel TFT LCD, back light		
Languages	English, German, Spanish, Italian, French, Portuguese, Russian, Japanese, Korean		
Power (AC Adapter)	100 ~ 240 VAC ~ 50 / 60 Hz		
Operating Temp. & Humidity	0 to 40°C, 0 to 95% RH (non condensing)		
Dimensions & Weight	approx. 130 x 330 x 183 mm; 1.7 kg		
Approval	CE		
Bump Test	Standard setting values: AIR Flush time: 15 sec, GAS time: 20 sec, AIR Purge time: 5 sec, Threshold value: ± 50%, Setting range: AIR Flush time: 15 - 120 sec, GAS time: 20 - 120 sec, AIR Purge time: 5 - 120 sec, Threshold value: ± 10 - 50%		
Calibration	Standard setting values: AIR Flush time: 30 sec, GAS time: 90 sec, AIR Purge time: 30 sec Setting ranges: AIR Flush time: 15 - 120 sec, GAS time: 20 - 120 sec, AIR Purge time: 5 - 120 sec		
USB Printer Port	A type: Connects SDM-6000 printer (SII, DPU-S245) via USB cable		
RJ-45 Connektor	Ethernet port for a LAN connection		
SD Card Slot	Compatible with SD & SDHC cards		
Joint Connctor	Connecting SDM-6000 (Max 10 units) and SV-3		
Inlet	4 inlets: GAS 1 / GAS 2 / GAS 3 / AIR		
Standard Features	Charging, Alarm activation check, backlight adjusting, buzzer function, self-diagnosis		
Standard Accessories	Users Manual, filter, tube		
Optional Accessories	SV-3 solenoid valve adds 3 additional calibration gas inputs, AC adaptor (15 W / 100 W output), calibration station utility software, calibration gas & regulators, tubing, connecting plate, wall mount plate, PC controller software		

Specification subject to change without notice.
